

Alliance Leisure – Environmental Policy

Working Towards
Silver
Accreditation
Setting the standard for
the environment

Alliance Leisure recognises that all businesses impact on the environment in a variety of different ways. As such we are committed to the continual improvement of our environmental performance in relation to our services and operations.

We have identified the following key environmental impacts associated with the delivery of development projects to our clients:

- Production and disposal of materials
- Supplier Issues
- Waste Disposal
- Consumption of Energy, Water and other resources
- Packaging Materials
- Transport of raw materials and goods

The company is committed to reducing these and other impacts and to the continual improvement of our environmental performance. To help achieve this, Alliance Leisure are working towards Investors in the Environment Silver accreditation. We are committed to working with our staff, customers, suppliers, investors, contractors, regulatory bodies and neighbours to achieve the following objectives;

- Meet and where possible exceed all environmental regulations relevant to our organisation and its activities.
- Increase cost-effectiveness by reducing our consumption of energy and raw materials
- Reduce waste, pollution and noise both locally and in the wider environment
- Systematically assess all aspects of our company
- Set targets for measurable annual improvements
- Make our progress available for independent assessment.

It is the responsibility of all employees, visitors and contractors to fully support this policy through active participation and co-operation.

The introduction and implementation of this policy is a commitment of Alliance Leisure management and a shared responsibility with our employees. Tom Fairey has designated responsibility for day-to-day implementation of this policy.

The policy will be reviewed annually as part of the organisation's overall environment management plan.

Sarah Watts, Managing Director: _____
